## **DETAILED ACTION**

### ***I. Preliminary Matters:***

(a) Applicants response of 8/27/2003 has been received and entered into the file.

Claims 2-12 are cancelled.

Claims 1 and 13-19 are pending.

### ***II. Remarks:***

(a) Restriction/Election:

(i) The Applicant is correct, the restriction should have been stated to be groups 1-9 and 12-19, drawn to compounds that fall within the elected group as identified on page 2 of office action dated 5/28/2003. Claims 10 and 11 are withdrawn from consideration as being drawn to non-elected inventions. 37 CFR 1.142(b).

(ii) Issues under 35 USC 112, second paragraph:

The amendments to the claims has overcome rejections under this paragraph.

(iii) Issues under 35 USC 102(a):

The amendments to the claims has overcome rejections under this paragraph.

(iv) Issues under 35 USC 102(b):

This rejection has been withdrawn as the R1 moiety as instantly claimed cannot be hydrogen.

(v) The objection to claim 1 is maintained as the R3 and R4 moieties were restricted to form a 3-8 membered heterocycle with the N atom. Therefore, this claim still contains non-elected subject matter and needs to be amended.

### ***II. New Rejections:***

#### ***Claim Rejections - 35 USC § 112***

Art Unit: 1626

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 13-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicants have limited their claims wherein R1 is an alkyl of C2-C9. This limitation adds new matter into the claim as neither the specification nor the originally filed claims have described a genus as instantly claimed wherein R1 is an alkyl of C2-C9.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 13-19 recites the limitation "R1 is alkyl of C2-C9" in claim 1. There is insufficient antecedent basis for this limitation in the originally filed claims or the specification.

### ***III. Maintained Objections:***

Claims 1 and 16-19 are objected to as containing non-elected subject matter.

### ***IV. Finality:***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1626

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
